Introducing Warlingham Park School

Warlingham Park School aims to provide a balanced all-round education for its pupils within a happy, friendly and family-orientated environment. All children are given the opportunity to achieve their full potential and small classes enable the individual needs and strengths of each child to be identified, allowing them to discover their own talents.

Warlingham Park was founded in 1986 and introduced the concept of teaching technology to young children. Today it continues to combine modern technology and computer studies with traditional teaching, particularly focusing on the teaching of English and maths. Class sizes are small to ensure each child receives careful attention and individual help.

There is also a wide range of activities outside the classroom including music, drama and sports to provide a well-balanced, all round education. This provides children every opportunity to develop their confidence and extra-curricular talents alongside their academic skills.

Throughout the school the children learn a sense of community and respect and are expected to co-operate within an acceptable framework for discipline and general behaviour.

Nursery

Warlingham Park Nursery provides the first step in the educational path through the school. Children are able to join from the age of two and take advantage of the facilities they share with the rest of the school. Activity is mainly play-based, with some simple work on colours, shapes and familiar things. Children are also encouraged to develop pencil control, number recognition and simple drawing and colouring.

Pre-School

The main aim of Warlingham Park Pre-School unit is to provide an environment where a child's enthusiasm for learning can be stimulated. Every child has the opportunity to develop intellectual, physical, creative and social skills in a caring and friendly environment. A variety of activities are provided to encourage progress in Early Learning goals.

Preparation for senior school

Children are prepared for entry at 11+ to all local independent schools as well as the maintained sector. The school works with the pupil and parents to choose the right school for each child whether that be to gain a music scholarship at a public school or to have a confident outlook to take to their local secondary school. Warlingham Park has an excellent scholarship record, both academic and in other areas over recent years.
